CONGRATULATIONS!  
HERE IS...

# YOUR PRESET!

---

Thank you for downloading my preset. This particular preset was created with love and with the hope that it would help make your Instagram feed and your pictures in general pop with even more life and creativity.

I also want to remind you that each picture is different. So play around with exposure, contrast, and temperature until you feel satisfied. For a tutorial on how to import and use those presets on Lightroom, visit [meljeanty.com/presets](https://meljeanty.com/presets).

Again, I am so happy that you could grab this freebie. Please make sure to tag @meljeantypresets or use the hashtag #meljeantypresets in your future creations!

Sincerely,

*Mel*
